Hello,

Attached, please find the 2020 Workshare table. We provided our updates/clarifications in blue. Also attached for your records are the Final Report Approval letter and Tech memo for the National Heat and Power Site.

Please let me know if you have any questions.

Hi Bonnie,

I'd appreciate a response at your earliest convenience. I realize you have to do some research to provide a current status and that can be time consuming, especially if you are working remotely and have access to site files. Is it possible to complete within 2 weeks?

**Joseph A. Vitello** | Site Assessment Manager

We're starting to look at this. When do you need our responses by? Does 30-days work?

Hi Bonnie,

Attached to this email is the FY20 Workshare Spreadsheet. Please review the sites and provide an updated status for each of the blank cells. I request that you also look at the other statuses I've already filled out and edit/update if you feel it is inaccurate or you have new information to share. I have to apologize for having not taken action on many of these since last year. I was pretty much working on Norwood Landfill fulltime since our workshare meeting last year and the project management only grew exponentially. My responsibilities have grown to Remedial Project Manager duties as well, among other things so my time has been spread thin to focus on these other sites.

Please let me know if you have any questions. I can arrange a conference call to discuss any thing here in greater detail.

Good Morning,

Thank you for sharing the list of webinars.

Regarding the workshare, yes please send over the spreadsheet. If possible please remember to include addresses so I can identify and look up the Site. We will review it and provide you with updates.

Hi Bonnie,

Hope you and everyone else at DEP is doing well. Attached is some information on a series of free webinars that EPA is offering the first week of August, in lieu of hosting the National Site Assessment Symposium, which was cancelled due to COVID19. Perhaps you or members of your staff will find some of the sessions interesting and will have ability to participate.

On a secondary note....As a result of the shifting priorities over the last few months I allowed completing my annual Workshare meetings slide by. If I provide you with the spreadsheet list of sites as I did last year, could I ask you to provide me with any new and updated information you have for the sites on the list, as you have done in the past? There shouldn't be much new information to provide, as you may recall many of the sites on the list are sites which you have provided information on in the past and require action on EPA's part to review and document. I am most interested in the sites on the list that have ongoing DEP or PRP-led remedial actions and any new sites found by DEP that EPA can assist with.

Please let me know if you would like to proceed with just a review of the spreadsheet for you to update and return or if we can have a conference call and review it together in real-time.

Thanks,
